

Royal Agricultural Society of NSW

Royal Agricultural Society of NSW Hook Competition

Five lambs from the Hoof section will be slaughtered for the Hook Competition at the Gundagai Lamb Processors and assessed utilising the DEXA technology.

The five carcasses will be weighed and tagged and together with the DEXA results, the Grand Champion and Reserve Grand Champion Carcasses of the Show will be determined.

An award will be given for the Champion Pen of Carcasses and Reserve Champion Pen of Carcasses. This will be selected based on the combined live weight scans of all three carcasses in the Pen.

All costs associated with the transporting and slaughtering of the Lambs will be borne by the Society and Gundagai Meat Processors.

CLASSES

Pen of Five UNSHORN PRIME SUCKER LAMBS, weighing from 48kg to 55kg.

Pen of Five UNSHORN ALL BREEDS LAMBS, weighing over 55kg
